

Toronto Community Housing Corporation (TCHC) Use of Non-Residential Space Application Form For Agency Applicants

This form is for agency applicants interested in using common, community or recreational space (i.e. library, recreation room and meeting room) in one of TCHC's communities. It is for agency applicants who are interested in using the space on a recurring basis – i.e. on more than 1 occasion – either exclusively or non-exclusively.

If you are interested in using common, community or recreational space for a one-time event – i.e. on only 1 occasion – please use the *One-Time Event Application Form*.

If you require assistance completing this form, please contact the local **Community Service Coordinator**.

Please fill out **all** sections of the form and attach all required information. We will be unable to process your application if it is incomplete.

Thank you for your interest in Toronto Community Housing Corporation's community and recreational spaces.

Please note that in completing this application, we ask you to answer a number of questions regarding your group/organization and the programming/services you intend to provide, should you be granted use of TCHC space. We ask you to provide this information for a number of reasons, which include the following:

- Ensuring that the practices of your group or organization are compliant with TCHC policies and procedures;
- Ensuring that the practices of your group or organization are compliant with governing legislation; and
- Identifying what programs/services are being provided to which of our tenants. This information then allows us to identify gaps in programs/services and TCHC communities which may be underserved.

In determining whether your application for use of space will be approved, TCHC's decision will be guided by the following factors:

- Availability of space;
- Alignment with community needs and priorities;
- Alignment with TCHC priorities and policies.

The answers you provide will help us to properly apply our guiding factors to your application.
