This Addendum forms part of the above mentioned RFP document and is to be read, interpreted, and coordinated with all other parts. **1. QUESTIONS AND ANSWERS (answers in bold)**

1. Can mechanical contractors bid on this project and submit the letter of good standing and union documents from our electrical subcontractor?  
**Yes**
2. We are not affiliated with the IBEW union. But can we still bid on this tender as a prime contractor if we carry the electrical subcontractor who is affiliated with IBEW 353?  
**Yes**
3. Is the load bank mounted on the roof platform with the Generator?  
**Yes. Refer to detail #1 on drawing S-101 for relevant elevation:**

4. Who are the acceptable manufacturers for the natural gas generator and the load bank?

**Design is based upon noted equipment manufacturers in the drawing/spec package. Contractors are welcome to submit alternatives for review as an "approved equal" during the shop drawing review stage as long as they meet all the specifications noted within the drawing/spec package and have reliably available local replacement parts/service in the event of future repairs. Note that if the contractor selects an alternative manufacturer that they would be responsible for any impacts on the design (larger platform required due to increased size, increased equipment weight, etc...) as part of the base bid.**

5. Who is the Base Building Fire Alarm Contractor?

**Eurotech. Contact Info:**

6. Who is the Base Building Sprinkler Contractor?

All other terms and conditions remain the same.
