

Notice to all tenants about the building's cooling system

**Work to turn on the cooling system for the
summer months will begin on:**

We thank you for your patience as we turn off the building's heating system and switch on the cooling system. This may take a few days to complete. If you have questions or concerns about the comfort of your unit, talk to your superintendent or contact the Client Care Centre at **416-981-5500** or help@torontohousing.ca.

There is a City bylaw that guides when we turn off the heating system. Go to torontohousing.ca for more information about the bylaw and heating and cooling changes in your building.

To request this poster in an alternate format or language, call the Client Care Centre at **416-981-5500**.
