

Enhancing fire safety

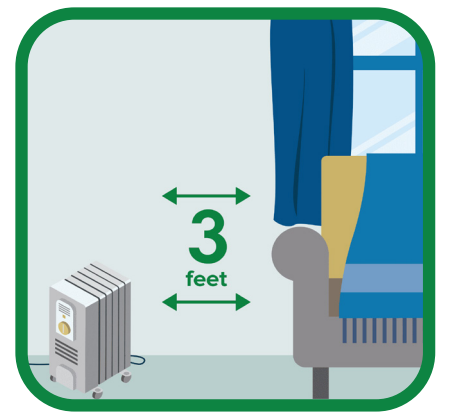

Fire safety is everyone's responsibility

Space heaters

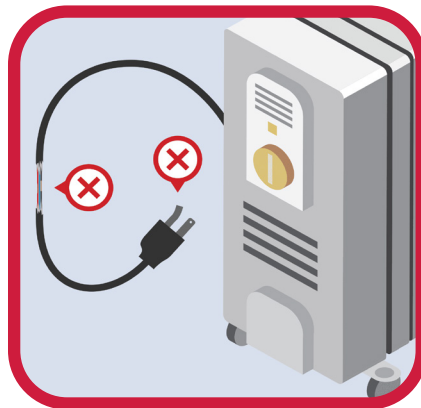

Space heaters are great for keeping us warm in winter, but they're a fire hazard if used improperly. These tips will help you keep your space heater a safe heater.

Heaters can burn things

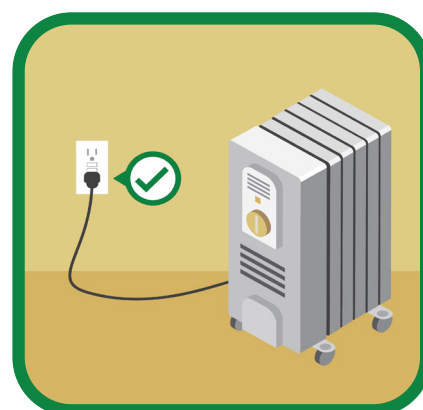

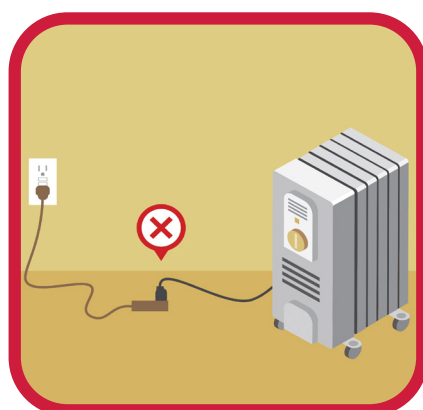

Place heaters on a solid, flat surface. Keep them at least three feet away from items in your home that can burn.

Damaged cords can cause sparks

Never use a space heater with a damaged cord or plug.

Extension cords and power bars can overheat

Space heaters use a lot of energy. Always plug them directly into a wall outlet.
