

# COVID-19

## update for tenants

June 29, 2020

---

## Business restart, reopening and recovery

While still closely monitoring the COVID-19 situation, we are beginning to safely and gradually restart services and reopen amenities during the week of June 29.

We will use a phased approach to responsibly restart services and reopen amenities that were temporarily suspended, while following all safety measures prescribed by the City of Toronto and Toronto Public Health directives. We will continue to take every precaution to protect your health and safety.

Starting the week of June 29, we will begin to re-open the following amenities:

- Faith-based services in some community rooms
- Outdoor swimming pools (nine communities)
- Sports courts (not playgrounds or fitness equipment)
- Ornamental gardens

As well, we will increase the capacity in cooling rooms to a maximum of 10 people.

These amenities will be re-opened with safety measures such as capacity restrictions, physical distancing requirements, cleaning and disinfection protocols and a sign-in process for attendees. We will also strongly encourage the use of masks and frequent hand hygiene to protect your health and safety.
