

Notice to tenants of this building

Elevator use during the back-to-school period

We want to keep everyone safe as children and youth return to school this fall. On schooldays, please give school-aged children priority access on the elevators during peak hours in the morning and afternoon.

While requirements for physical distancing and wearing a mask or face covering will continue, we are making changes to manage increased elevator use on schooldays.

- We have increased elevator capacity to **three persons** provided everyone is wearing a mask and members of different households keep a distance of two metres (six feet).
- We are cleaning and disinfecting the stairwells twice daily.
- We are inspecting stairwells and entry doors twice daily.

If you encounter a safety issue in a stairwell or elevator, please tell the Superintendent or call our Community Safety Unit Dispatch at **416-921-2323**.

Call 416-981-5500 to request this handout in an alternate language or format.
