

Enhancing fire safety

Fire safety is everyone's responsibility

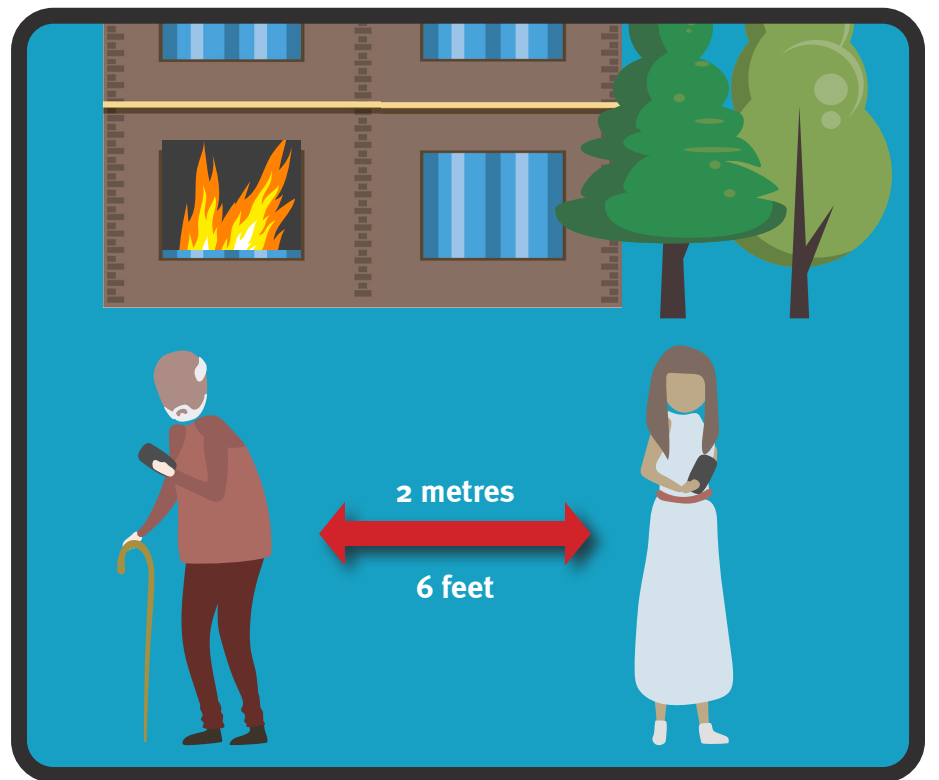

Physical distancing during fire alarms

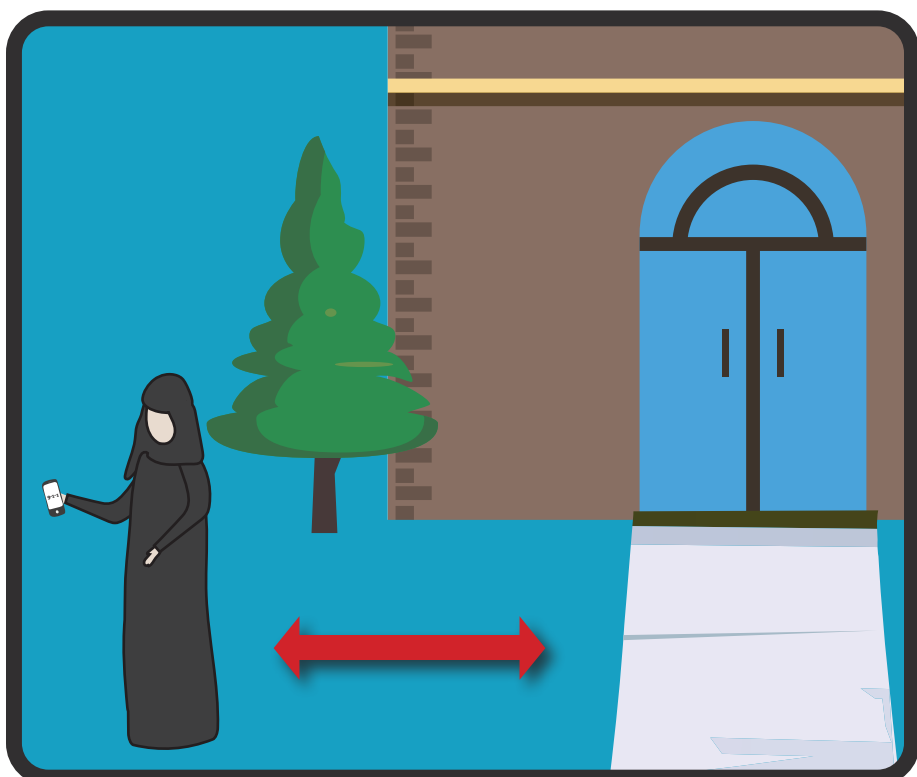

When a fire alarm sounds, you need to act fast. Because of COVID-19, you should maintain physical distancing as safely and as often as possible if you decide to evacuate the building. Here are some important things to remember:

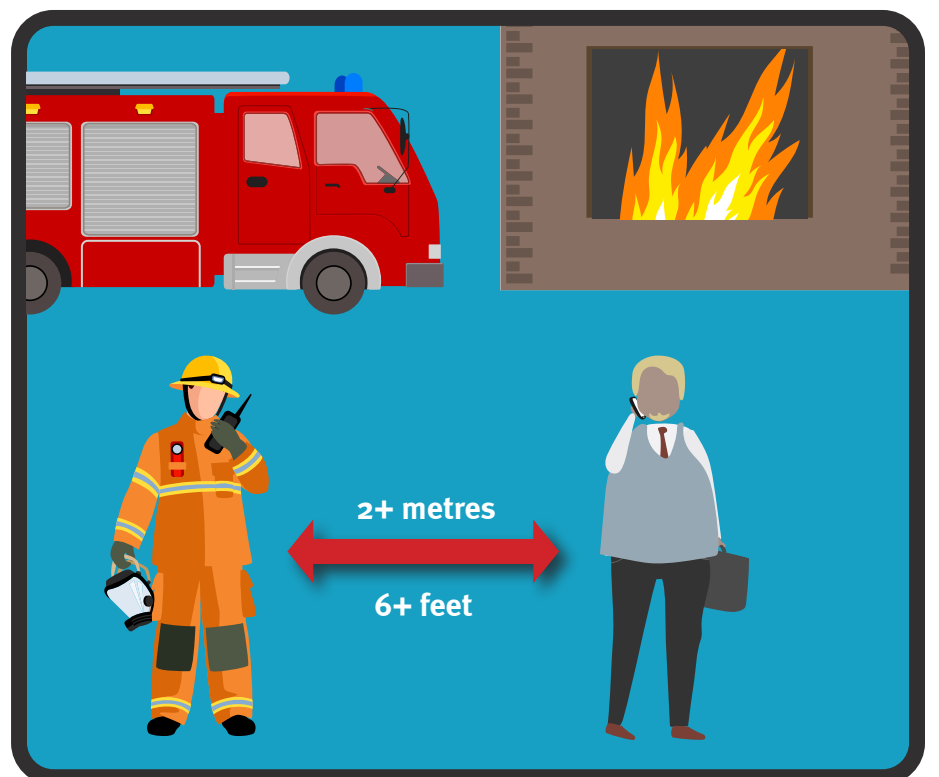

Always follow the building's fire emergency procedures.

Maintain 2 metres (six feet) of physical distance from others whenever possible.

Once you're outside the building, keep clear of all walkways, entrances and exits.

Give room to first responders and stay away from emergency vehicles.

Visit torontohousing.ca/covid-19 for more information.
