

Representative recommendation facility changes plans to turn our building space for underground business without our building tenants' knowledge and consent.

Always remember the Board and its Committee has a role and responsibility to review and overturn Management decisions if tenants are negatively affected and not consistent with Toronto's Housing Charter. Therefore I support the annual Deputation Policy continually depute in TCHC Board and its Committee and considering expanded to develop Independent Open Tenants Deputation focus group

to ensure Landlords should have accountability and transparency and be able to demonstrate that there is two way Communication between Management and tenants and that tenants issues are fully addressed.

Thank You for the opportunity to share my comment.
