

Tenant Engagement elections: phase three communities October 2020

Toronto Community Housing (TCHC) engagement activities were suspended in March due to COVID-19. As restrictions are lifted and we move into different phases of business recovery, TCHC staff will resume the tenant election process.

Elections and related activities will be done in a multi-phased approach as recommended by the TCHC Board of Directors. This means that the election process and any related engagement activities will be implemented in three phases, with specific buildings starting their elections in each phase.

105 communities are part of phase three; they are listed by region in tables below.

- West region: general portfolio
- West region: Seniors Housing Unit
- Central region: general portfolio
- Central region: Seniors Housing Unit
- East region: general portfolio
- East region: Seniors Housing Unit

Please note: not all communities in phase three were not able to finish the local engagement model selection process before TCHC had to suspend activities due to COVID-19. When phase three starts, these communities will first select their preferred local engagement option, and then will move through the Community Representative election process as appropriate.
